Eliminates urine splash-back

Innovative mesh design with angled grooves eliminates splash-back and keeps the urinal area clean. This also reduces cleaning time.

Flexible and discreet design

The Fab30 has an innovative flexible design that can fit into any urinal. The unique design acts as a net to trap debris, keeping the drain clean. It significantly reduces the spread of germs throughout a facility.

Eliminates bad odours

The proprietary odour neutralising agent removes bad odours completely, instead of masking them. The Fab30 screens are impregnated with high-impact fragrances, for a fresh-smelling washroom.

All Fab30 screens contain

neutra-lox malodour eliminator

Enviro-Save

Consistent fragrance throughout

Fab30

Urinal screens fragrance guide

Choose and match the fragrance of Fab30 with Oxy-Gen Powered® cartridges for a fresh smelling washroom.

Adore

A sophisticated fragrance that combines fresh apple notes with amber and spices

Crush

An exotic mix of pineapple, tropical fruits and coconut

Spa

A fresh, invigorating scent with fragrant lavender and spicy herbs

Tang

An intensely fruity perfume with hints of orange supported by warm spices

Glow

Juicy black cherries, hints of almond and plum on a background of vanilla and cinnamon spice

All Fab30 fragrance screens are recyclable.
